

# Liquidware Labs™ Training Courses

Liquidware Labs offers product training courses that provide users with knowledge and skills — basic through advanced — that enable them to fully capitalize on their desktop management software investment.

## ProfileUnity™ and FlexApp™

training courses provide participants with the knowledge and skills to install and configure ProfileUnity with FlexApp application layering, as well as to navigate the user interface, create and manage rules, and perform administrative tasks for desktop UEM infrastructures.

### ProfileUnity and FlexApp Training Modules

- Module 1 ProfileUnity & FlexApp Overview
- Module 2 ProfileUnity Installation and Setup
- Module 3 ProfileUnity Management Console
